

NIGHTS OF CHROME **and Fan Material**

***NIGHTS OF CHROME** is a hack, a revision and an augmented manual based on **CYBERPUNK VIEJA ESCUELA**, and published by **GRAPAS Y MAPAS**. **NIGHTS OF CHROME** adapts, expands and reconfigures the original rules, being a generic manual for urban, futuristic or cyberpunk themed adventures.*

*If as a fan you want to publish fan material based on **NIGHTS OF CHROME**, either in free or paid format, you can do it freely. You can create supplements, expansions or modules, and use the **NIGHTS OF CHROME** rules without restrictions. However, if you are going to refer to the original rules present in the **NIGHTS OF CHROME** manual, before adding them to the supplement, I would be grateful if you could refer to the original manual, taking advantage of the fact that it is completely free. If you think it is necessary to add a specific fragment to the new supplement for a better understanding, there is no problem.*

*If on the other hand, the intention is to make a complete, specific and independent manual, based on **NIGHTS OF CHROME** (which in turn is based on **CYBERPUNK VIEJA ESCUELA** and other related supplements), you must respect the Creative Commons Attribution - NonCommercial - ShareAlike license terms.*

*If you want to add to your supplement a logo indicating that it is compatible with **NIGHTS OF CHROME**, you can add the logo below.*
